**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-11, drawn to parts (component) mounting method, classified in class 29, subclass 832.
  - II. Claims 12-16, drawn to parts (component) mounting apparatus, classified in class 29, subclass 740.

The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process (Group I) as claimed can be practiced by another materially different apparatus such as one wherein a control section operatively associated with the suction nozzles and a supply section for direct picking up the parts and mount them on a board without having to store them or wherein the mounting of the parts on a board (as recited in claim 1, line 9) can be practiced by hand.

Because these inventions are distinct for the reasons given above and have acquired a *separate status in the art as shown by their different classification*, and the *search required for Group I is not required for Group II*, restriction for examination purposes as indicated is proper.

Art Unit: 3729

2. A telephone call was made to *Michael Garvey* on 3/12/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Minh Trinh whose telephone number is (703) 305-2887. The examiner can normally be reached on Monday -Thursday 8:00 am to 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on (703) 308-1789. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-7307 for regular communications and (703) 305-3579 for After Final communications.
